

**Peerless® Discontinuation Notice for Select Bruno® and Staple™ Fluorescent Product Families  
1/1/19**

With the continued market trend to LED lighting for architectural luminaires, Peerless® has made a strategic decision to discontinue select fluorescent product families effective January 2019.

If you had a project that required one of the Peerless® fluorescent product families, your order should have been entered by December 28, 2018.

We are excited to focus solely on LED products and look forward to developing new, and innovative LED lighting products.
